#### Trademarks

The logo sold to you is exclusively yours and is never resold. We Insist you to apply for trademark registration in your country before making investments based on the logo. We do not charge based on the changes or updates and let the customer decide without prejudice on the purchase or the logo design, its shape , style , color and text fonts without any obligation.

Trademark application will rule out any proximity of the design with another existing design and in an event that your trademark attorney insists upon you to change the design or you yourself feel the need to change the design sufficiently enough to make it look unique before trademark application, we shall provide with variations of the design happily. However, we do not have access to all the existing logos like the trademark registry and it is almost impossible to be 100% certain that the chosen design is in no way a loose match of an existing design.

Hence we insist our customers to do their own due diligence and apply for trademark registration before making investments based on the logo design supplied by us.
